

Tyler Audette

Senior Software Engineer

Phone: 508-951-1076

Website: www.tyleraudette.com

Email: tyleraudette5@gmail.com

Software engineer with professional experience in both contributing, and leadership roles. Experience architecting and building production-level applications across web and mobile platforms. Utilized multiple testing frameworks, working closely with data science for data-driven feature development. Built and maintained internal CMSs for managing these applications.

Successful in leading a small team of engineers in an Agile environment. Performing scrum master duties, personally contributing to sprint work, as well as mentoring junior developers.

EXPERIENCE

Gaia

February 2018 - Present

Software Engineer and Team Lead

- Significant work on Gaia's web application and internal CMS, building new features while as leveraging user data for more efficient targeting and user experience.
- Built and maintained restful APIs which serve the web, mobile, and tv applications.
- Team lead in an Agile environment.
 - Performed all scrum master duties including sprint and project planning.
 - Acted as a mentor for junior devs.

Self Employed

September 2016 - February 2018

Software Engineer

Freelance engineer working on a variety of products.

Highlights:

- Kai: A sustainable food delivery app built with React and Redux.
- Grip6: A Shopify based e-commerce store. I implemented an Angular app for the "belt builder", as well as built out new product pages.

Markit

October 2015 - September 2016 (1 year)

Software Engineer

- Built and maintained large scale finance web applications in the .NET MVC framework.
- Built data models in C#, converted wireframes to responsive views using HTML & Razor, and added functionality with jQuery.

Static Climbing

December 2014 - Present

Athlete and Brand Ambassador

EDUCATION

Saint Michael's College

2008 - 2012

Bachelor of Science in Business Administration, Finance Minor
